

International Ranger Federation

So Hilary Clinton is a fan of our work!!(maybe future president of the USA)
For rangers around the world this is big and I'm very grateful. Hilary said it was vital what we are doing supporting rangers and their families and Clinton Global... Initiative and her Chelsea and Bill are behind it. i gave her a snare bracelet too and she wore it onstage- green bracelet with real snare on it. She mentioned on stage, the need to support and protect rangers and the families of rangers, as did the President of Gabon, and Chelsea Clinton. To the rangers seeing this I hope you feel proud that your work is being respected and supported at the highest levels-you are inspiring so many people- the world really cares for your critical work in conservation and more support is coming.
Heartfelt thanks

Sean Willmore

The Thin Green Line Foundation

International Ranger Federation

So if you didn't read the big news in the media release, Leonardo Di Caprio Foundation gave me permission to tell the Clinton Global Initiative that they are very interested in supporting our Commitment to train and equip 400+ rangers in Africa and support 200 widows also and will make a decision on the grant over the next few months They invite other philanthropists to join them in considering supporting this! So this is a big start and we know we have many other regions to also take this same kind of support for Rangers- India, Asia, Latin America etc- but we are on the way. This news made my decade!

Cheers

Sean

PS a photo of Obama because photos get your attention:)...and its Obama!
